Merchant bank and sponsor: Rand Merchant Bank (A division of FirstRand Bank Limited)

Transfer secretaries: Computershare Investor Services 2004 (Pty) Limited 70 Marshall Street, Johannesburg, 2001

Vacancy since December 2005

Lease expiry profile by GLA at 31 December 2006

Commentary

The Board of directors of Strategic Real Estate Managers (Pty) Limited ("STREM") is pleased to announce a distribution of 40,10 cents per Emira participatory interest (PI) for the six months to 31 December 2006. This represents growth in distributions of 10,0% on the previous comparable period.

Emira PI holders enjoyed a healthy total return of 21,8% during the six months to 31 December 2006, comprising capital appreciation of 17,1% and an income return of 4,7%. The percentage of total PIs in issue that traded in the period equated to 40% on an annualised basis.

The three months from May to July 2006 were exceptionally volatile for the listed property sector as a result of the unexpected rise in prime interest rates that became effective in June. Fortunately, confidence has subsequently returned to the long-term interest rate market and the listed property sector, with bond yields having recovered to levels below 8%. The rise in short-term interest rates has done little to dampen the strength of the commercial property market, with demand for space remaining strong and rentals continuing to show real growth.

During the period under review, four of the five properties acquired from RMB Properties and Momentum for R844 million – Wonderpark, WesBank House, Newlands Terraces and WorldWear – were either transferred or became income producing for Emira. The remaining new development – RTT Warehouse – is on track for completion by mid-April. Moreover, the \$1,2 million new PIs to be issued to BEE parties in partial consideration for the above-mentioned purchases were listed during the period, resulting in these BEE parties currently holding 14,25% of Emira's issued PIs.

On 18 December 2006 Emira PI holders and Freestone linked unitholders were advised that STREM had submitted, to the Board of directors of Freestone, Emira's firm intention to make an offer to Freestone linked unitholders to acquire all the issued linked units of Freestone ("the Freestone acquisition"). The Freestone acquisition is progressing according to plan and it is expected that a circular will be posted to Emira PI holders within the next two weeks, with a meeting of Emira PI holders likely to take place by approximately mid-March.

Results

Revenue, excluding straight-line adjustments, grew by 19,1% on the back of inherent growth in the existing portfolio, the acquisitions made during the period, as well as the contribution for the full period from acquisitions concluded in the previous financial year. Like-for-like revenue growth is estimated at 9,3%, driven by the office portfolio, which benefited from declining vacancies and rising rentals.

Recoverable and non-recoverable costs were well contained during the six months, rising at levels in line with the prevailing CPI on a like-for-like basis. This good operational performance is evidenced by the reducing property expense-to-revenue ratio (excluding straight-line adjustments) during the period.

The fund's weighted average interest rate rose slightly during the period as a result of the rise in prime interest rates, although with in excess of 80% of the debt fixed for periods from seven months to close to five years, this did not have a significant impact.

Administration and management fees once again showed the largest variance, rising by 21% on the comparable period as a result of the higher PI price, increased PIs in issue and the new acquisitions.

Distribution per participatory interest (cents)	40,10	36,44	74,50

*A directors' valuation of the investment property portfolio was carried out as at 31 December 2006, resulting in a surplus of R239,4 million, brought to account at that date. As at 31 December 2005, no directors' valuation was carried out and therefore no surplus/deficit was brought to account.

**IFRS adjustments arose as a result of the properties which were acquired by an equity-based payment method (participatory interests issued to the seller in exchange for properties). The amount disclosed is the difference between the value of the participatory interests at the issue price and the value of the participatory interests based on the closing price of the participatory interests on the date of the participatory interest holders' approval being 22 August 2006.

Acquisitions

Four of the five properties acquired from RMB Properties and Momentum are now income-producing for Emira, with RTT expected to be completed by mid-April. One additional property in a prime location on Umhlanga Ridge with Discovery Health as the single tenant was acquired for R26,5 million during the period.

Properties transferred to Emira during the six months to December 2006
