COMMENTARY

The board of directors of Emira ("Board") is pleased to announce that an interim dividend of 74,10 cents per share has been declared for the six months to 31 December 2019. This is a year-on-year increase of 1,7% which is in line with the positive guidance communicated in August 2019.

DISTRIBUTABLE EARNINGS

While the South African economy continues to be constrained, hindering growth, the steps taken by the Fund in recent years, specifically the rebalance of its portfolio, the continued reinvestment into the portfolio and capital allocation to more resilient economies, has resulted in Emira's ability to maintain distribution growth.

Tenant retention remains a key focus area. The Company's ability to understand its tenants' needs and deliver appropriate good quality and well-priced real estate has kept vacancies at low levels but not at the expense of growth.

Revenue reduced year-on-year by 11,4% from R869,9m to R770,3m (excluding straight-lining adjustments in respect of future rental escalations). This reduction was due to the R1,8bn office portfolio disposal to Inani Property Fund ("Inani"), where 25 properties were transferred between January 2019 and December 2019. The static portfolio performed well, with a pleasing like-for-like revenue growth of 6,6%, driven mostly by contractual escalations and lower vacancies.

Property expenses decreased by 6,9%, also driven by the Inani office portfolio disposal. Expenses on the static portfolio showed a like-for-like increase of 12,5% for the year, in line with expectations and driven by escalating electricity and municipal costs. The Company continues to invest in alternative energy sources and initiatives to reduce electricity and water consumption. The gross cost-to-income ratio increased to 39,2% from 37,3%, demonstrating that expenses grew at a faster rate during the period when compared to income.

Income from the Fund's listed investment in Growthpoint Australia Limited ("GOZ") decreased by 43,4% to R15,3m (which includes R5,8m recognised for distribution purposes only in respect of the *cum* dividend element of 12 885 956 GOZ units sold during the period). The decrease in income was due to the GOZ units sold during the year. The underlying Australian dollar ("AUD") distribution per unit of GOZ increased period-on-period by 3,5% to 11,8 AUD cents per share.

Distributable income from equity-accounted investments of R107,9m includes the following:

- > Income from investments made in the United States of America ("USA" or "US") of R61,3m represents Emira's share of the net distributable income from the nine property investments held in the US.
- > Income from Enyuka Property Fund ("Enyuka") of R39,0m, being the interest received on Emira's loan to Enyuka (R40,2m) less Emira's 49,9% portion of Enyuka's net loss (R1,2m after interest). Enyuka's net loss is post an asset management fee of R3,2m of which Emira receives 50%.
- > Income from Transcend Residential Property Fund ("Transcend") of R7,6m, which comprises interest received on Emira's loan to Transcend. In addition, an amount of R15,9m has been accrued for distribution purposes only in respect of the dividend declared by Transcend on 14 February 2020 in respect of the six-month period ended 31 December 2019.

Administration expenses, which includes property management fees and staff costs, decreased marginally by 0,6% to R58,6m (December 2018: R59,0m).

Other income of R1,7m includes a raising fee of R0,1m in respect of the mezzanine loan provided by Emira to Inani for the final property transferred during the period, as well as 50% of the asset management fee charged to Enyuka (R1,6m).

During the period, there was a realised foreign exchange gain of R2,2m compared to a loss of R0,5m the previous period. This relates primarily to the Fund's US investments on which income is accounted for at a weighted average monthly rate and then converted on a cash flow basis at the forward exchange contract rates.

The ESA Trust ("the Trust") is a trust that was set up during the prior year to hold shares for the benefit of Emira's executive directors. In June 2019, the Trust acquired 7 200 000 Emira shares utilising loan finance provided by both Emira and Sanlam Capital Markets ("Sanlam"). Emira is deemed to control the Trust and accordingly it is consolidated. The shares held by the Trust are re-classified as treasury shares for accounting purposes. On the basis that the net income of the Trust is for the benefit of its beneficiaries and not Emira, the dividends received on the shares classified as treasury shares are not included in the distribution statement. Likewise, the interest charge relating to the Sanlam debt and other Trust charges, totalling R1,9m for the period, which are consolidated by Emira, are added back in the calculation of Emira's distributable earnings.

Net finance costs for the year have reduced to R178,8m. Debt levels were lower as a result of proceeds received from the Inani office portfolio disposal as well as the GOZ disposal proceeds. Interest received increased substantially, primarily due to interest received on the mezzanine loan of R331,1m provided to Inani, which interest is payable quarterly in arrears.

The "premium on BEE share option" represents interest received on the Vendor Loans provided under the BEE Transaction (as defined in the circular to shareholders dated 29 May 2017). The Vendor Loans issued under the BEE Transaction are not recognised for accounting purposes as they are deemed to be the granting of a call option on Emira's shares. In terms of the loan agreements, interest is charged to the BEE parties at a rate equal to Emira's dividend yield and is recognised for distribution purposes. For accounting purposes, the income earned from the BEE parties is classified as a "premium on BEE share option" and recognised as equity. The BEE parties settle the interest charged on a six-monthly basis.

The tax credit of R2,5m relates to foreign withholding taxes that were over provided in the prior period on dividends declared to Emira by its US subsidiary, CIL2.

The distributable loss due to minorities of R0,3m relates to Bet All Investments Proprietary Limited, the subsidiary which owns The Bolton, where minority shareholders hold 25,0%.

Transaction and advisory fees of R0,6m have been excluded from the calculation of distributable earnings. These costs are once-off in nature and relate to the acquisition of the minority shareholders' 3,16% share of CIL2 LLC ("CIL2"), the entity through which Emira invests into the USA.

DISTRIBUTION STATEMENT

	Half-year	Half-year	
	ended	ended	%
R'000	31 Dec 2019	31 Dec 2018	change

No. of shares in issue	522 667 247	522 667 247	-
Dividend per share (cents)	74,10	72,86	1,7

NET ASSET VALUE ("NAV")

The NAV has reduced marginally to 1787 cents per share (Jun 2019: 1791 cents). This reduction was mainly due to a reduction in the value of investment properties, all of which were revalued at 31 December 2019 by Emira's own internal registered valuer. The number of shares used to calculate NAV was 500 256 590 and is made up as follows:

	2019	2018
Actual shares in issue	522 667 247	522 667 247
Adjusted for:		
Vendor funded shares under the BEE Scheme ¹	(12 370 510)	(12 370 510)
Shares acquired for the Emira Forfeitable Share Plan ²	(2 840 147)	-
Shares held by the ESA Trust ³	(7 200 000)	
Adjusted shares in issue	500 256 590	510 296 737

- 1 Emira shares relating to the outstanding capital on the Vendor Loans provided to the BEE Parties under Emira's June 2017 BEE Transaction are deemed to not be issued for accounting purposes.
- $^{2}\,$ Emira shares held by Emira's Forfeitable Share Plan are classified as treasury shares for accounting purposes.
- ³ Emira shares held by the ESA Trust are classified as treasury shares upon consolidation of the ESA Trust.

VACANCIES

Vacancies are pro-actively managed by focussing on tenant retention, innovative letting strategies and, where necessary, the disposal of non-core properties. The absence of local economic growth has increased the pressure on tenants making their retention one of Emira's strategic priorities. Actively engaging with tenants on an on-going basis has become of the utmost importance to Emira.

It is pleasing to report that vacancies are lower, having decreased to 3,0% as at 31 December 2019 from 3,7% as at 31 December 2018 and 3,6% as at 30 June 2019. This is evidence of the hard work and initiatives that Emira continuously pursues. While urban retail sector vacancies have increased to 2,4% (December 2018: 2,0%), they are well below the South African Property Owners Association ("SAPOA") national average of 4,4% (SAPOA reported September 2019). Industrial vacancies have decreased to 2,7% (December 2018: 3,7%), which is also below the SAPOA national average of 3,4% (SAPOA reported June 2019). The decrease is due to letting activity at a number of Emira's industrial parks, specifically Highway Business Park, Industrial Village Jet Park, 34/36 Director Road and Universal Industrial Park, all of which are now fully let. Emira's office sector vacancies have shown an improvement, decreasing to 4,6% (December 2018: 5,6%). This is again well below the SAPOA national levels of 11,0%, and has been driven by disposals, specifically Corobay Corner, Lake Buena Vista and Menlyn Square Office Park.

The Bolton, Emira's sole directly held residential property, was completed in May 2019 and as at 31 December 2019, was 93,6% let, with only 18 units vacant.

MAJOR LEASES CONCLUDED AND TENANT RENEWALS

The largest new leases concluded during the period under review, by lease value, were Foodserv Solutions at Denver Warehouse in Johannesburg (9 752m² for a total value of R25,1m), Rare Woods at Epping Warehouse in Cape Town (5 490m² for a total value of R16,9m) replacing Transpaco, Redfox Management at Boundary Terraces in Cape Town (435m² for a total value of R8,4m), Transaction Capital Recoveries at Hyde Park Lane in Johannesburg (1 546m² for a total value of R8,0m) and The Local Choice Pharmacy at The Tramshed in Pretoria (263m² for a total value of R6,6m).

A total of 82% by revenue (December 2018: 88%) and 80% by GLA (December 2018: 85%) of expiring leases were renewed and tenants retained during the year. The largest renewals concluded by lease value, were Dis-Chem at Randridge Mall in Johannesburg (2 035m² for a total value of R22,7m), The Beverage Company at Isando (20 Anvil Road) in Johannesburg (12 250m² for a total value of R18,4m), Bidvest at Steiner Services in Johannesburg (4 804m² for a total value of R17,9m), National Debt Advisors at 9 Long in Cape Town (1 803m² for a total value of R7,4m) and CEVA Animal Health at Ceva Midrand in Johannesburg (2 781m² for a total value of R6.3m).

DISPOSALS

As communicated in August 2019, 24 of the 25 assets forming part of the office portfolio disposal to Inani had transferred by 30 June 2019. The final property, being 1059 Francis Baard, transferred to Inani on 20 December 2019, upon the suspensive conditions being met.

As at 31 December 2019, Epsom Downs Shopping Centre valued at R70,2m has been classified as held for sale, and is expected to transfer out of Emira by 30 June 2020.

DEVELOPMENTS AND REFURBISHMENTS

Emira's policy of recycling its capital and strategically investing in tactical upgrades that unlock value and strengthen its asset base was maintained during the period. Given the domestic energy challenges and water shortages, projects that improve the resilience of Emira's properties, specifically those relating to backup water and alternative energy sources, including generators, were prioritised. The quality and attractiveness of the Fund's assets remain key elements in retaining existing and attracting new tenants.

A total of R95,3m capital expenditure was utilised during the year on the Fund's directly held portfolio. The following major projects commenced or were concluded during the period:

- > A redevelopment to modernise the building of Hyde Park Lane Office Park in Johannesburg was completed during the period.
- > A major refurbishment and upgrade of 80 Strand in Cape Town, to accommodate WeWork was undertaken.
- > A general refurbishment of Granada Square in Umhlanga Rocks to upgrade and modernise the building was finalised.
- > The installation of photovoltaic (PV) solar farms at Springfield in Durban, Southern Centre in Bloemfontein and Market Square in Plettenberg Bay, which will reduce the reliance on Eskom produced power, commenced.
- > Upgrades to Epsom Downs Office Park were completed.
- > Water harvesting projects across the portfolio commenced.

DEBT

Emira has diversified sources of funding and banking facilities in place with all the major South African banks. As at 31 December 2019, Emira had a moderate level of gearing with a total indebtedness (interest-bearing debt plus net derivative liabilities less cash) to total income producing assets of 35,1%. The Fund's Group level interest cover ratio was 3,2 times.

Proceeds realised on the disposal of GOZ and the sale of the office portfolio to Inani were partially used to permanently reduce debt, which at reporting date was down to R4,9bn. The weighted average duration to expiry of Emira's debt facilities is 2,3 years as at 31 December 2019. The Fund will continue with its strategy of refinancing debt on a longer-term basis and managing the debt expiry profile such that the amount of debt expiring in any one period is manageable. The Company has R1,2bn of debt maturing in the next 12 months.

During the period, facilities that were either put in place or refinanced included the following:

- > A R300,0m two-year revolving credit facility with RMB was renewed for a further three years at prime less 145 bps; and
- > A R200,0m12-month general banking facility with Investec was renewed for a further 12 months.

Emira continues to successfully access funding via the debt capital markets at competitive rates. During the current period, Emira issued R505,0m of new listed commercial paper and corporate bonds to refinance R734,0m of maturing notes. The new instruments were issued for an average term of 1,6 years and at an average cost of 1,17% above three-month JIBAR versus the matured notes of 1,9 years and a cost of 1,41%.

The Fund has fixed 86,6% of its debt for periods of between 0,7 and 4,9 years, with a weighted average duration of 3,0 years.

	Weighted average rate (%)	Weighted average term	Amount (Rm)	% of debt
Debt – fixed swap	7,7	_	4 220,6	86,6
Debt – floating	8,5	-	655,8	13,4
Total	7,8	2,3 years	4 876,3	100,0

Add: Accrued interest	-	-	35,3	-
Per statement of financial position	-	-	4 905,4	-

Global Credit Rating Company (Pty) Ltd ("GCR") affirmed a corporate long-term credit rating of A(ZA) and corporate short-term rating of A1(ZA), with the outlook accorded as stable, in July 2019.

As at 31 December 2019, Emira had effective AUD denominated debt of AUD20,5m through its AUD cross-currency interest-rate swaps ("CCIRS") against assets valued at AUD23,9m. The AUD CCIRS relate to the Fund's investment in GOZ. In addition, Emira has effective United States dollar ("USD") denominated debt of USD64,9m through its USD CCIRS. These USD CCIRS relate to investments (including cash) based in the USA valued at USD77,7m.

INVESTMENTS

TRANSCEND

Transcend is a specialist residential REIT in which Emira has a 34,9% equity interest. The mezzanine loan of R143,4m provided by Emira to Transcend was refinanced during the period, with R50,0m now due on 12 June 2020 and the balance due 30 June 2021.

Transcend announced on 5 February 2020 that the JSE Limited ("JSE") had approved the transfer of the Company's listing from the Alternative Exchange to the "SA Listed Property" sector of the Main Board of the JSE with effect from Wednesday, 12 February 2020.

Emira equity accounts its interest in Transcend and the R24,8m recognised includes Emira's share of Transcend's net profit of R17,3m and R7,5m of interest received on the mezzanine loan provided to Transcend.

During the period Emira received dividends of R13,8m from Transcend for the six-month period ended 30 June 2019. An amount of R15,9m has been accrued for distribution purposes only in respect of the dividend declared by Transcend on 13 February 2020 in respect of the six-month period ended 31 December 2019.

As at 31 December 2019, Transcend's total property portfolio was valued at R2,8bn and its loan to value ratio was 47,0%, with the interest cover ratio at 1,64 times.

ENYUKA

Enyuka is a rural retail venture between Emira and One Property Holdings. Emira equity accounts its interest in Enyuka and the R53,0m recognised includes Emira's share of Enyuka's net profit of R12,8m (of which R1,2m is a distributable loss) and R40,2m of interest received on the shareholder loan provided to Enyuka.

During the period, Enyuka acquired two new properties for a total consideration of R493,1m, including acquisition costs. The acquisitions were funded by new debt facilities

As at 31 December 2019, Enyuka's total property portfolio was valued at R1,7bn and its loan to value ratio was 54,0%. Enyuka's interest cover ratio was 3,0 times at 31 December 2019.

GOZ

During the six-month period to 31 December 2019, the Company disposed a further 12 885 956 GOZ units at an average price of AUD4,33 per unit. Emira considers its remaining investment in GOZ to be non-core and anticipates trading out of the balance by 30 June 2020.

As at 31 December 2019, GOZ's unit price was AUD4,15. Emira's remaining investment of 5 752 491 units is valued at R234,3m.

GN7

115 4

USA

Emira has, on a deal-by-deal basis, co-invested into nine grocery-anchored dominant value-oriented power centres in the USA, together with its USA-based partner, The Rainier Companies ("Rainier"). Emira, through its US subsidiary CIL2, owns a minority share in each of the nine direct property-owning entities but has a unanimous voting arrangement on all major decisions.

Underpinned by sound property fundaments and a quality tenant base, the US investments have a consolidated weighted average lease expiry of 5,2 years (by GLA) and a vacancy rate of 2,6%.

Emira equity accounts the nine direct property-owning entities and R71,2m was recognised as its share of the net profit for the period of which R61,3m is distributable. The carrying value of the equity-accounted investments as at 31 December 2019 was R1,1bn (or USD76,7m).

While there were no new investments concluded during the period, Emira and Rainier actively pursue new opportunities but not at the expense of the quality of the real estate or price. Subsequent to reporting date, on 3 February 2020, Emira acquired a 49,8% equity interest in Dawson Marketplace, a grocery-anchored power centre in Dawsonville, Georgia, at a total cost to Emira of USD13,3m at a forecast year 1 cash-on-cash equity yield of 10,65%.

OTHER FINANCIAL ASSETS

The investment in Inani is classified as a financial asset through profit and loss with a fair value of R28,6m as at 31 December 2019.

FOREIGN INCOME HEDGING

To minimise potential adverse foreign exchange fluctuations on Emira's earnings, a portion of the expected net foreign income, after offsetting foreign interest on CCIRS, is hedged.

For Emira's US investments at least 90% of the first four years of expected net income was hedged on the date that each investment was made. Subsequently, additional hedges have been put in place to extend the hedged profile. It is anticipated that this policy will be maintained for future investments.

Future dated AUD hedges were settled during the period in anticipation of Emira's remaining investment in GOZ being disposed.

The following hedges were in place as at 31 December 2019:

	(AUD)	(USD)
Forward rate against Rand		
Jun 2020	R11,40	R14,85
Dec 2020	-	R15,24
Jun 2021	-	R15,54
Dec 2021	-	R16,04
Jun 2022	-	R16,50
Dec 2022	-	R17,19
Jun 2023	-	R17,76
Dec 2023	-	R18,39

WORLEY PARSONS UPDATE

As communicated in August 2019, Emira filed a notice of appeal in respect of the award delivered by the arbitrator on 26 June 2019. The arbitration appeal panel has been finalised and consists of three retired judges. The parties are yet to agree on a date when the appeal will be heard.

SUBSEQUENT EVENTS

Other than the acquisition referred to above under the USA Investment section, there have been no other significant events subsequent to the reporting date.

TRANSFORMATION AND B-BBEE

In its pursuit to remain a responsible corporate citizen, Emira fully recognises and acknowledges the importance of adhering to the country's Broad-Based Black Economic Empowerment ("B-BBEE") policies in order to promote true transformation within a South African context. The Fund is pleased to report that through implementation of various initiatives and policies, its B-BBEE rating has improved to a Level 5 contributor from a Level 7, with a verified effective black ownership of 50,25% and notes that it will continue to find meaningful ways in which to improve its impact on the economy and society.

SA REIT ASSOCIATION BEST PRACTICE RECOMMENDATIONS

The SA REIT Association recently released a second edition, Best Practice Recommendations ("BPR"), which deals with best practice reporting for SA REITs.

The new BPR is applicable for year-ends starting from 1 January 2020. Emira is currently assessing the BPR and will as far as possible, endeavour to comply with the recommendations contained therein. Emira confirms that this set of results is compliant with the current BPR as published by the SA REIT Association.

PROSPECTS

Delivering sustainable, consistent earnings and ensuring the longevity of Emira is the Board's primary objective. The rebalancing of the portfolio over the past three years together with the reallocation of capital to different geographies have been key strategies to achieve this objective. The balance sheet is well positioned, with assets fairly valued and conservative gearing in place. While these initiatives have provided Emira with a solid platform to face the challenges ahead, the Board is realistic in terms of what can be achieved in a low growth, uncertain environment and will continue to act responsibly in this regard.

Factoring in the current and expected market conditions for the period ahead, vacancy profiles and expected rental reversions, as well as anticipated opportunities, shareholders can continue to expect a comparable growth in dividends for the next six-month period.

This forecast is the responsibility of the directors of Emira and has not been reviewed or reported on by Emira's external auditors.

DIVIDEND DISTRIBUTION DECLARATION

The Board has approved, and notice is hereby given that an interim gross dividend of 74,10 cents per share has been declared (December 2018: 72,86 cents), payable to the registered shareholders of Emira on 16 March 2020. The issued share capital at the declaration date is 522 667 247 listed ordinary shares. The source of the dividend comprises net income from property rentals, income earned from the Company's listed property investment, income earned from the Company's equity accounted investments, interest earned on loans receivable and interest earned on cash on deposit. Please refer to the condensed consolidated statement of comprehensive income for further information.

TAX IMPLICATIONS

In accordance with Emira's status as a REIT, shareholders are advised that the dividend meets the requirements of a "qualifying distribution" for the purposes of section 25BB of the Income Tax Act, No. 58 of 1962 ("Income Tax Act"). Accordingly, qualifying distributions received by local tax residents must be included in the gross income of such shareholders (as a non-exempt dividend in terms of section 10(1)(k)(aa) of the Income Tax Act), with the effect that the qualifying distribution is taxable as income in the hands of the shareholder. These qualifying distributions are, however, exempt from dividend withholding tax in the hands of South African tax resident shareholders, provided that the South African resident shareholders have provided the following forms to their Central Securities Depository Participant ("CSDP") or broker, as the case may be, in respect of uncertificated shares, or the transfer secretaries, in respect of certificated shares:

- (a) a declaration that the dividend is exempt from dividends tax; and
- (b) a written undertaking to inform the CSDP, broker or the transfer secretaries, as the case may be, should the circumstances affecting the exemption change or the beneficial owner cease to be the beneficial owner, both in the form prescribed by the Commissioner for the South African Revenue Service. Shareholders are advised to contact their CSDP, broker or the transfer secretaries, as the case may be, to arrange for the abovementioned documents to be submitted prior to payment of the dividend, if such documents have not already been submitted.

Qualifying dividends received by non-resident shareholders will not be taxable as income and instead will be treated as ordinary dividends but which are exempt in terms of the usual dividend exemptions per section 10(1)(k) of the Income Tax Act. Any distribution received by a non-resident from a REIT will be subject to dividend withholding tax at 20%, unless the rate is reduced in terms of any applicable agreement for the avoidance of double taxation ("DTA") between South Africa and the country of residence of the shareholder. Assuming dividend withholding tax will be withheld at a rate of 20%, the net amount due to non-resident shareholders will be 59,2800 cents per share. A reduced dividend withholding tax rate in terms of the applicable DTA, may only be relied on if the non-resident shareholder has provided the following forms to their CSDP or broker, as the case may be, in respect of the uncertificated shares, or the transfer secretaries, in respect of certificated shares:

- (a) a declaration that the dividend is subject to a reduced rate as a result of the application of a DTA; and
- (b) a written undertaking to inform their CSDP, broker or the transfer secretaries, as the case may be, should the circumstances affecting the reduced rate change or the beneficial owner cease to be the beneficial owner, both in the form prescribed by the Commissioner for the South African Revenue Service. Non-resident shareholders are advised to contact their CSDP, broker or the transfer secretaries, as the case may be, to arrange for the abovementioned documents to be submitted prior to payment of the dividend if such documents have not already been submitted, if applicable.

Local tax resident shareholders as well as non-resident shareholders are encouraged to consult their professional advisors should they be in any doubt as to the appropriate action to take.

The Company's tax reference number is 9995/739/15/9.

BASIS OF PREPARATION AND ACCOUNTING POLICIES

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") including IAS 34 Interim Financial Reporting, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, Financial Pronouncements as issued by the Financial Reporting Standards Council, the JSE Listings Requirements and the requirements of the Companies Act, No. 71 of 2008 of South Africa. The accounting policies used in the preparation of these financial statements are in terms of IFRS and are consistent with those used in the audited annual financial statements for the year ended 30 June 2019, other than the adoption of those amendments or new standards that became effective in the current period.

This report was compiled under the supervision of Greg Booyens CA(SA), the Chief Financial Officer of Emira.

These condensed consolidated interim financial statements have not been reviewed or audited by Emira's independent auditor, Ernst & Young Inc.

CHANGE IN ACCOUNTING POLICY

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model.

Emira has initially adopted IFRS 16 – Leases from 1 July 2019 and has adopted the modified retrospective method of application. Emira has elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application.

On adoption, Emira has recognised right-of-use assets and lease liabilities in relation to land leases which had previously been classified as operating leases under the principles of IAS 16 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the interest rate implicit in each lease. Subsequently each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

On transition date, the right-of-use assets were measured at the amount equal to the lease liability. The right-of-use assets relating to land leases are subsequently remeasured at fair value in terms of IAS 40.

MEASUREMENTS OF FAIR VALUE

1. FINANCIAL INSTRUMENTS

The financial assets and liabilities measured at fair value in the statement of financial position are grouped into the fair value hierarchy as follows:

R'000	Level 1 Dec 2019	Level 2 Dec 2019	Level 3 Dec 2019	Total Dec 2019	Level 1 Dec 2018	Level 2 Dec 2018	Level 3 Dec 2018	Total Dec 2018
	Dec 2019	Dec 2019	Dec 2019	Dec 2019	Dec 2016	Dec 2016	Dec 2016	Dec 2016
GROUP								
Assets								
Investments	234 334	-	-	234 334	918 057	-	-	918 057
Derivative financial	-	-	-	-	-	-	-	-
Instruments	-	153 372	-	153 372	-	129 433	396	129 829
Other financial assets		_	28 641	28 641	_	_	_	_
Total	234 334	153 372	28 641	416 347	918 057	129 433	396	1047 886
Liabilities								
Derivative financial	-	-	-	-	_	-	-	-
instruments	-	253 083	-	253 083	_	192 855	_	192 855
Total	-	253 083	-	253 083	_	192 855	_	192 855
Net fair value	234 334	(99 711)	28 641	163 264	918 057	(63 422)	396	855 031

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

2TMFMT23VMI

This comprises shares held in a listed property company at fair value which is determined by reference to quoted closing prices at the reporting date.

DERIVATIVE FINANCIAL INSTRUMENTS

The fair values of the interest-rate swap contracts are determined using discounted cash flow projections based on estimates of future cash flows, supported by the terms of the relevant swap agreements and external evidence such as the ZAR 0-coupon perfect-fit swap curve.

The fair values of the cross-currency interest-rate swap contracts are valued by discounting the future cash flows using the basis swap curve of the respective currencies at the dates when the cash flows will take place.

The AUD and USD forward exchange contracts are valued by discounting the forward rates applied at the period end to the open hedged positions.

The forward contracts relating to the employee share scheme are valued using a cost of carry financial model. The risk-free discount rate used ranged between 6,7% and 6,8%. Management considers the key input in the valuation to be the spot price. A 10% increase in the spot price results in an increase to the forward contracts of R6,2m. A 10% decrease in the spot price results in a decrease to the forward contracts of R6,2m.

OTHER FINANCIAL ASSETS

The fair value of other financial assets is measured in terms of Inani's net asset value at reporting date.

2. NON-FINANCIAL ASSETS

The following table reflects the levels within the hierarchy of non-financial assets measured at fair value as at 31 December 2019:

R'000	2019 Level 3	2018 Level 3
Assets		
Investment properties*	10 866 630	10 787 853
Investment properties held for sale	70 200	1 921 833

^{*} Net of lease liability.

FAIR VALUE MEASUREMENT OF INVESTMENT PROPERTIES

The fair value of commercial buildings is estimated using an income approach which discounts the estimated rental income stream, net of projected operating costs, as well as an exit value, using a discount rate derived from market yields. The estimated rental stream takes into account current occupancy levels, estimates of future vacancy levels, the terms of in-place leases and expectations of rentals from future leases over the remaining economic life of the buildings.

The most significant inputs, all of which are unobservable, are the estimated rental value, assumptions regarding vacancy levels, the discount rate and the reversionary capitalisation rate. The estimated fair value increases if the estimated rentals increase, vacancy levels decline or if discount rates (market yields) and reversionary capitalisation rates decline. The overall valuations are sensitive to all four assumptions. Management considers the range of reasonable possible alternative assumptions to be greatest for reversionary capitalisation rates, rental values and vacancy levels and that there is also an interrelationship between these inputs. The inputs used in the valuations as at 31 December 2019 were the following:

> The permanent vacancy factor for retail ranged between 0,25% and 10,0% (December 2018: 0,25% and 5,0%), offices between 2% and 10,0% (December 2018: 1,0% and 5,0%) and industrial between 2,5% and 10,5% (December 2018: 0,25% and 5,0%).

- > The weighted average rental escalation percentage, by value applied for retail was 7,1% (December 2018: 7,5%), offices 7,5% (December 2018: 7,5%) and industrial 7,6% (December 2018: 7,8%), and for renewals and new leases ranged between 5,0% and 9,0% (December 2018: 6,0% to 9,0%).
- > The range of the reversionary capitalisation rates applied to the portfolio are between 7,25% and 11,75% with the weighted average, by value, being 9,04% (December 2018: 9,06%).
- > The discount rates applied range between 12,5% and 16,25% with the weighted average, by value, being 14,08% (December 2018: 14,13%).
- > Changes in discount rates and reversionary capitalisation rates attributable to changes in market conditions can have a significant impact on property valuations. A 25 basis points increase in the discount rate will decrease the value of investment property by R182,8m (1,67%) and a 25 basis points decrease will increase the value of investment property by R189,5m (1,73%). A 25 basis points decrease in the reversionary capitalisation rate will increase the value of investment property by R187,5m (1,71%).
- > The market rentals applied play a significant role and these are assessed on a property-by-property basis and unit-by-unit basis, taking cognisance of location, quality, size and type as well as all the relevant and prevailing market conditions which are then benchmarked against research and asset manager projections.

Fair values are estimated twice a year by Emira's internal registered valuer, whereafter they are reviewed by the executive directors and approved by the Board. One third of the portfolio is valued externally each year end on a rolling basis.

FAIR VALUE MEASUREMENT OF INVESTMENT PROPERTIES HELD FOR SALE

The fair value of investment properties held for sale is based on the expected sale price.
